

BUSINESS CONTINUITY SOLUTION / DRAAS

End-to-End Scalable Business Continuity Solutions

Permanently eliminate downtime.

Data backup alone is not enough. Your business data is constantly being threatened with the risk of viruses, disasters and system failures. You need a Business Continuity solution that ensures your recovery solution is:

Usable · Tested · Virus Free · Current

When a disaster occurs you will be back up and running in no time with all your data intact. Elements you should look for in a Business Continuity Solution:

- *Image-based backups*
- *Backups will be stored locally and securely in the cloud*
- *Backup data is tested for validity*
- *Ease of upgrade as your business grows*

No matter where your data lives, it's safe.

Keep your business data protected. Our Business Continuity Solutions can protect your business from downtime, even if your physical hardware has been destroyed.

If your business relies on data in the cloud, we can protect your critical information from the most likely form of loss: humans. Accidental deletions, ex-employees, even malicious activity. Our DRaaS backs up, protects and allows you to instantly restore accounts and data so business can return to normal.
